

## **Cookies Policy**

This web site uses cookies of its own or from other parties in order to provide you a pleasant navigation experience in accordance with your needs and your interests.

### **What is a “cookie”?**

“Browser cookie” or “HTTP cookie” or plainly “cookie” is a small dimensions file, composed of letters and numbers, which will be saved on your computer, phone or other device from which our site is accessed.

The cookie is installed to a browser (like Internet Explorer or Chrome) at our web-server request and it is completely “passive”, meaning that it doesn’t contain software, viruses or spyware and it cannot access information from your hard-drive.

**Our site cookies do not ask for personal information and do not individualize the internet users.**

**The cookies types active** on our site are the following:

- ✓ The cookie saving your language option on our site,
- ✓ The cookie marking that you accessed the number of petitions submitted to ONIX Asigurări S.A.,
- ✓ The cookie collecting data during your visit on our web-site pages, data used for statistical evaluations of our site, by other services providers (like for example, Google). You have the choice to allow or not, the use of such cookies, by setting the configurations of your internet browser.

### **How long a cookie persists?**

Our web site cookies are used exclusively for one session (session cookies) and they don’t persist once the user left the website;

At any moment, the cookies can be erased by you through the settings of your browser.

### **Cookies are not viruses!**

They use plain text formats. They are not made of code parts in order to be run and also, they cannot auto-run. By not attributing these functions to them, they cannot be considered viruses.

The confidentiality settings of your browsers for accessing the internet are integrated in the Options/Settings or Preferences/Favorites Menus and we advise you to access them any time you may consider necessary, because they provide information on cookies acceptance levels, their persistence period and the automatic erase period after the user visited a certain website. All browsers offer the possibility to change the cookies settings.
