Fitch Affirms and Withdraws ONIX Asigurari's Ratings

Fri 08 Dec, 2023 - 7:25 AM ET

Fitch Ratings - Frankfurt am Main - 08 Dec 2023: Fitch Ratings has affirmed and withdrawn ONIX Asigurari S.A.'s (ONIX) 'BB' Insurer Financial Strength (IFS) Rating and 'BB-' Issuer Default Rating (IDR) with a Stable Outlook.

The affirmation reflects ONIX's small scale and franchise compared with larger, more diversified insurers' and its weak risk-mitigation policies. These weaknesses are offset by its sound capitalisation and strong financial performance.

Fitch is withdrawing the ratings of ONIX for commercial reasons. Fitch will no longer provide ratings or analytical coverage for this entity.

KEY RATING DRIVERS

Weak Company Profile: Fitch assesses ONIX's business profile as 'Least Favourable' compared with larger, more diversified peers' due to the company's small size and limited product diversification. In 2022, ONIX had EUR41 million in equity (2021: EUR37 million) and wrote EUR27 million in gross premiums (GWP; 2021: EUR31 million). Fitch assesses ONIX's business profile as its key rating weakness.

ONIX is a small Romanian-based non-life insurer that operates predominantly in Spain and, to a lesser extent, in Italy, Poland, Portugal, Greece and, since 2022, Romania. It focuses largely on surety business for medium-sized to large corporations operating predominantly in the construction and energy industries.

Lack of Reinsurance Protection: ONIX does not make use of reinsurance protection. We believe that this exposes the company's capital to large shocks, albeit supporting its strong profitability. We see the company's risk mitigants like, for example, its prudent underwriting policy and the use of counter-guarantees, as supportive of ONIX's rating.

Adequate Capitalisation, Strong Profitability: ONIX's sound capitalisation is reflected in an adequate credit exposure-to-equity ratio of 16% in 2022 (2021: 22%). Our assessment of ONIX's strong profitability is driven by the company's record of very profitable underwriting results, due to good underwriting discipline.

Low Asset Risk: Fitch views ONIX's investment and liquidity risk as low for the ratings. Exposure to Romanian sovereign debt (BBB-/Stable) was low at 0.1x shareholders' equity at end-2022 (2021: 0.8x), as the company invested the profits from matured Romanian bonds into term deposits.

ESG CONSIDERATIONS

The highest level of ESG credit relevance is a score of '3', unless otherwise disclosed in this section. A score of '3' means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. Fitch's ESG Relevance Scores are not inputs in the rating process; they are an observation on the relevance and materiality of ESG factors in the rating decision. In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions

about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch Ratings makes routine, commonly-accepted adjustments to reported financial data in accordance with the relevant criteria and/or industry standards to provide financial metric consistency for entities in the same sector or asset class.

The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Fitch also provides information on best-case rating upgrade scenarios and worst-case rating downgrade scenarios (defined as the 99th percentile of rating transitions, measured in each direction) for international credit ratings, based on historical performance. A simple average across asset classes presents best-case upgrades of 4 notches and worst-case downgrades of 8 notches at the 99th percentile. Sector-specific best- and worst-case scenario credit ratings are listed in more detail at <https://www.fitchratings.com/site/re/10238496>

The information in this report is provided “as is” without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor,

for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction.
